INDEPENDENT AUDITOR'S REPORT

September 21, 2005

The Board of Education Lowell Area Schools

We have audited the accompanying financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Lowell Area Schools (the "District") as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's elected officials and management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the major fund and the aggregate remaining fund information of Lowell Area Schools as of June 30, 2005, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 21, 2005 on our consideration of Lowell Area Schools' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of Lowell Area Schools. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Hungerford, Aldin, Vichol Herter, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Lowell Area Schools ("the District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which immediately follow this section.

Overview of the Financial Statements

This annual report consists of three parts: Management's Discussion and Analysis (this section), the Basic Financial Statements, and Supplemental Information. The Basic Financial Statements include two kinds of statements that present different views of the District:

- The first two statements, the Statement of Net Assets and the Statement of Activities, are *district-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the district, reporting the District's operations in more detail than the district-wide statements.
 - Governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
 - Fiduciary funds statements provide information about the financial relationships in which the district acts solely as a trustee or agent for the benefit of others.

The Basic Financial Statements also include Notes to Financial Statements that explain the information in the Basic Financial Statements and provide more detailed data. Other Supplemental Information follows and includes combining and individual fund statements.

District-wide Statements

The District-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District's net assets, and how they have changed. Net assets - the difference between the District's assets and liabilities - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, one should consider additional non-financial factors such as changes in the District's property tax-base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are presented as follows:

• Governmental activities: The District's basic services are included here, such as regular and special education, instructional support, transportation, administration, community services, food service and athletics. State aid and property taxes finance most of these activities.

Condensed District-Wide Financial Information

The Statement of Net Assets provides financial information on the District as a whole.

	2005		2004

Financial Analysis of the District as a Whole

The District's financial position is the product of many factors. Student numbers decreased by 18 students from the previous year while the State per-pupil allocation remained the same. As a result, revenue from the State Foundation Allowance decreased by \$510,708. In addition, the District incorporated over \$1 million in expenditure cuts in its original 2004-05 budget. The District entered into an agreement with the teacher's union to offer a severance package to teachers with ten or more years of service. The total cost of the severance package is \$557,420 for each of three years, for a total of \$1.67 million. Audit rules require that the entire expense be recorded in the 2004-05 school year, thus reducing the unrestricted net assets by \$1,672,260.

The District's total revenues increased 4.25 percent to \$36.5 million. Property taxes and state aid accounted for most of the District's revenue, contributing 82.7 cents of every dollar collected. Another 11.5 percent came from state and federal aid for specific programs, and the remainder from fees charged for services, interest earnings and miscellaneous sources.

The total cost of all programs and services rose just under 6.3 percent to \$39.3 million. The District's expenses are predominantly related to instructing, caring for (pupil services) and transporting students (58 percent). The District's administrative and business activities accounted for 7.7 percent of total costs.

The District's total expenses exceeded revenues by \$2,808,090 for 2004-05, resulting in an unrestricted net assets deficit balance of \$229,648 at June 30, 2005. As explained above, this decrease was due to the increase in General Fund expenditures over revenues in 2004-05 and the implementation of the employee severance package entirely expensed in the fiscal year.

The District continues to monitor the State economy and District budget and demographics in an attempt to protect academic programs and opportunities during challenging economic times. Regular updates on the budget and District finances were provided to the Board of Education, community groups, staff, and parents.

- Information was available to community members and parents via the local cable channel, where monthly Board of Education meetings were broadcast. At each monthly Board meeting and at the monthly Board workshop meetings, budget information was shared. The Board was kept updated on the changing economy and the impact on the 2004-05 budget.
- The Key Communicators group (group of community members) continues to meet monthly and receive information vital to their understanding of the operations of the district. Their charge is to communicate back to other community members and parents regarding key issues facing the District.
- Information was also shared throughout the year in the school buildings through Family Links (parent support groups) and public forums.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

The District utilizes two kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as Scholarship Funds and Student Activities Funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

Financial Analysis of the District's Funds

The District uses funds to record and analyze financial information. Lowell Area Schools' funds are described as follows:

Major Funds

General Fund

The General Fund is the District's primary operating fund. The General Fund had total revenues of \$30,714,357 and other financing sources (loan proceeds for the purchase of buses) of \$59,000, total expenditures of \$31,542,872, and other financing uses (contribution to the Athletic Fund) of \$308,967. It ended the fiscal year with a fund balance of \$2,120,363.

Enrollment decreased by 18 students from the previous year while the State per-pupil allocation remained the same. As a result, revenue from the State Foundation Allowance decreased by \$510,708. In addition, the District incorporated over \$1 million in expenditure cuts in its original 2004-05 budget. The District entered into an agreement with the teacher's union to offer a severance package to teachers with ten or more years of service. The total cost of the severance package is \$557,420 for each of three years, for a total of \$1.67 million, of which the first installment will be paid in the 2005-06 fiscal year.

Included in the budget which was adopted was an assumption that, through bargaining, employees would contribute to the cost of health insurance. At June 30, 2005 the collective bargaining agreements were settled and no contribution was collected toward the cost of health insurance. However, those groups accepted a lower-cost MESSA health package while non-union employees switched to a Priority Health plan. In addition to the \$1+ million in cuts incorporated in the original budget, final 2004-05 expenses exceeded revenue by another \$1,078,482 which is reflected as a reduction in fund balance by this amount.

Nonmajor Funds

Special Revenue Funds

The District operates two Special Revenue Funds, for the food service and athletics programs:

- Total revenue for the Food Service Fund was \$1,153,375, with total expenditures of \$1,178,074 and a June 30, 2005 fund balance of \$4,271, due to a General Fund contribution of \$7,350. The food service program is normally self-sufficient, and usually does not rely on General Fund contributions.
- Total revenue for the Athletic Fund was \$403,004 with additional General Fund contributions of \$291,145. Total expenditures were \$668,962, with sixty-four percent (64%) dedicated to salaries and benefits. The fund balance was increased from \$15,318 to \$40,505 for the year ended June 30, 2005.

Debt Service Funds

The District operates three Debt Service Funds – 1990, 2000 and the 2004 fund. Total revenues for the funds were \$4,235,537. Total expenditures were \$4,252,089. The ending fund balances in the Debt Service Funds were \$381,083.

Lowell Area Schools Management's Discussion and Analysis June 30, 2005

Capital Projects Funds

The District operates three Capital Projects Funds – 2000, 2004 and the new 2005 Energy Conservation Bond fund. Total revenues for the funds were \$26,706 plus energy conservation bond proceeds of \$2,300,000. Total expenditures were \$4,111,336. The ending fund balances in the Capital Projects Funds were \$239,787.

Fiduciary Funds

The Student Activity Fund, Flexible Benefits Fund and the Scholarship Fund are operated as Trust and Agency Funds of the District. The assets of these funds are being held for the benefit of the District's students and employees. Balances on hand at June 30, 2005 totaled \$279,333.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget two times after the June, 2004 adoption. These budget amendments fall into two categories:

- Changes made in February to account for the final student enrollment that determines how much foundation grant state school aid will be received during the fiscal year.
- Final changes made in June to reflect actual revenue and expenditures anticipated at June 30, 2005.

Although the District's final budget for the General Fund anticipated that expenditures would exceed revenues by \$1,129,037, the actual results for the year show a deficit of \$1,078,482:

- Actual revenues were \$37,674 higher than expected, miscellaneous local revenues and grants.
- Actual expenditures were \$12,882 below budget, due to adding a two-month accrual of the self-funded insurance for the non-union employees.

Capital Asset and Debt Administration

Capital Assets

By the end of 2005, the District had invested \$56.8 million in a broad range of capital assets, including land, school buildings, athletic facilities, school buses, and furniture and equipment. This amount represents a net increase of \$3.4 million or 6 percent from last year. (More detailed information about capital assets can be found in Note E in the notes to basic financial statements.) Total depreciation expense for the year was \$1.28 million.

At June 30, 2005, the District's investment in capital assets (net of accumulated depreciation), including land, land improvements, buildings, vehicles, furniture and equipment, was \$41.1 million. This represents an increase of approximately \$2.4 million over the previous year-end.

Land	\$ 1,022,158
Land improvements	621,158
Buildings	35,835,393
Furniture and equipment	626,312
Vehicles	665,831
Construction in progress	2,298,607
Net Capital Assets	\$ 41,069,459

Long-Term Debt

At year end, the District had \$52.8 million in general obligation bonds and other long-term debt outstanding – a net increase of \$2.9 million from last year.

- The District continued to pay down its debt, retiring \$1.56 million of outstanding bonds and installment purchase agreements.
- During the year, the District issued energy conservation bonds of \$2,300,000 to complete needed energy, mechanical, and electrical improvements in all the school buildings through a Performance Contracting Program.
- The District also advance refunded \$9,475, 000 of the 2000 bond issue during the year, saving the District \$531,218 in present value of future interest costs.

As of June 30, 2005, the District's outstanding Unlimited Tax General Obligation Bonds have the bond ratings of "Aaa" / "AAA" by Moody's Investors Service and Standard and Poor's, respectively. These bond ratings reflect that the District's Unlimited Tax General Obligation Bonds are fully qualified for the Michigan School Bond Loan Fund Program, a State constitutional credit enhancement program. The underlying bond ratings for such bond issues is "A3" / "A", respectively, without regard to such participation in the Michigan School Bond Loan Fund Program. The state limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the District's boundaries. The District's other obligations include early retirement incentive, compensated absences, and accumulated vacation days. We present more detailed information about our long-term liabilities in Note G in the Notes to Basic Financial Statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future:

- While changes were made to current health care plans, rising health care costs continue to be of concern and could significantly impact District finances in the future.
- For every dollar paid to employees throughout the year, the District pays a percentage into the Michigan Public Schools Employee Retirement System (MPSERS). The rising cost of this expense, controlled by the State, is a significant cause for concern into the future. In 2004-05, the District paid 14.87% of every dollar of payroll into the MPSERS. This amount will increase to 16.34% in 2005-06.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Business Office, Lowell Area Schools, 300 High Street, Lowell, MI 49331 via e-mail to the attention of Connie Gillette, Assistant Superintendent for Finance and Personnel - cgillette@lowellschools.com.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the year ended June 30, 2005

Net change in fund balances - total governmental funds		\$(2,847,618)
Amounts reported for governmental activites in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is capitalized and the cost is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:	£ 2 646 249	
Capital outlays Depreciation expense	\$ 3,646,348 (1,281,844)	2,364,504
As some delinquent personal property taxes will not be collected for several years after the District's fiscal year ends, they are not considered "available" revenues in the governmental funds, and are instead counted as deferred tax revenues. They are, however, recorded		
as revenues in the Statement of Activities.		(41,150)
In the Statement of Activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale(s) increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the assets sold.		(5,000)
Net bond premium and refunding and issuance costs are not expensed but but are amortized over the life of the new bond issue.		581,611
Proceeds from the sale of bonds or loans are an other financing source in the governmental funds, but increase long-term liabilities in the Statement of Net Assets.		(12,384,000)
Repayment of bond principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets and does not effect the Statement of Activities: Repayment of bonds Repayment of energy conservation bonds Repayment of installment purchase agreements	10,687,028 200,000 144,777	11,031,805
Interest on long-term liabilities in the Statement of Activities differs from the amount reported on the governmental funds because interest is recorded as an expenditure in the funds when it is due and paid, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues regardless of when it is pair	d.	26,450
In the Statement of Net Assets, early retirement incentive, accumulated sick/vacation pay and compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures are measured by the amount of financial resources used (essentially, the amounts actually paid). This year the amount of these		
benefits earned (\$2,049,572) exceeded the amounts used/paid (\$514,880).	-	(1,534,692)

See accompanying notes to basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

Note A – Summary of Significant Accounting Policies

Lowell Area Schools was organized under the School Code of the State of Michigan, and services a population of approximately 3,897 students. The District is governed by an elected Board of Education consisting of seven members and administered by a Superintendent who is appointed by the aforementioned Board. The District provides a comprehensive range of educational services as specified by state statute and Board of Education policy. These services include elementary education, secondary education, pre-school programs, athletic activities, special education, community services and general administrative services. The Board of Education also has broad financial responsibilities, including the approval of the annual budget and the establishment of a system of accounting and budgetary controls.

The financial statements of Lowell Area Schools (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to school districts. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

1. Reporting Entity

The financial reporting entity consists of a primary government and its component units. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include the funds of those organizational entities for which its elected governing board is financially accountable.

2. District-Wide and Fund Financial Statements

<u>District-Wide Financial Statements</u> - The district-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. The District does not allocate indirect costs and, for the most part, the effect of interfund activity has been removed. These statements are to distinguish between the *governmental* and *business-type activities* of the District. *Governmental activities* normally are supported by taxes and intergovernmental revenues, and are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The Statement of Net Assets is presented on the classified basis and is reported on the full accrual, economic resource basis, which recognizes all long-term assets as well as all long-term debt and obligations. The District's net assets are reported in three parts: invested in capital assets, net of related debt; restricted net assets, and unrestricted net assets.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Property taxes, unrestricted state aid, interest earnings and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the government wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The General Fund is the District's only major fund. Non-major funds are aggregated and presented in a single column.

<u>Fund Financial Statements</u> – Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Fund level statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances. The Balance Sheet reports current assets, current liabilities and fund balances. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources and uses of current financial resources. This differs from the economic resources measurement focus used to report at the district-wide level. Reconciliations between the two sets of statements are provided in separate statements.

Revenues are recognized when susceptible to accrual; i.e., both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Expenditures are generally recorded when the liability is incurred, if they are paid within 60 days after the end of the current fiscal period. The exception to this general rule is that principal and interest on long-term debt is recognized when due.

Revenues susceptible to accrual are property taxes, state aid, federal and interdistrict revenues and investment income. Other revenues are recognized when received. Deferred revenue arises when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. Deferred revenue also arises when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of the qualifying expenditures.

3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

District-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statement. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met.

The State of Michigan utilizes a foundation allowance approach, which provides for a specific annual amount of revenue per student based on a state-wide formula. The foundation allowance is funded from a combination of state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The State portion of the foundation is provided from the State's School Aid Fund and is recognized as revenues in accordance with state law and accounting principles generally accepted in the United States of America.

Governmental Funds

Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use, and balances of a school district's expendable financial resources and the related current liabilities are accounted for through governmental funds.

General Fund—The General Fund is the general operating fund of a school district. It is used to account for all financial resources, except those required to be accounted for in another fund. Included are all transactions related to the current operating budget.

Special Revenue Funds—Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes.

School Service Funds—School Service Funds are used to segregate, for administrative purposes, the transactions of a particular activity from regular revenue and expenditure accounts. A school district maintains full control of these funds. The School Service Funds maintained by the District are the Food Service and Athletic Funds.

Debt Service Funds—Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt (bonds, notes, loans, leases and school bond loan) principal, interest, and related costs.

Capital Projects Funds—Capital Projects Funds are used to record bond proceeds, property tax revenues or other revenues and the disbursement of monies specifically designated for acquiring new school sites, buildings, equipment and for major remodeling and repairs. The funds are retained until the purpose for which the funds were created has been accomplished.

The Capital Projects Funds include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the District has complied with the applicable provisions of Section 1351a of the State of Michigan's School Code.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by a school district in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Fiduciary Fund net assets and results of operations are not included in the district-wide financial statements. Fiduciary funds are reported using the economic resources measurement focus. The District presently maintains scholarship funds for the benefit of students.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District presently maintains a Student Activities Fund to record the transactions of student groups for school and school related purposes. The funds are segregated and held in trust for the students.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the district-wide and fiduciary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted as they are needed.

4. Budgets and Budgetary Accounting

State of Michigan Public Act 621 (the Uniform Budgetary and Accounting Act) requires that the General Fund of a school district be under budgetary control and that both budgeted and actual financial results do not incur a deficit. Lowell Area Schools has also adopted budgets for its Special Revenue Funds. A school district's General Appropriations Resolution (the "budget") must be adopted before the beginning of each fiscal year. No violations (dollar deviations) from a district's budget may occur without a corresponding amendment to the budget. A school district has the ability to amend the budget provided that the amendment is prior to the occurrence of the deviation and prior to the fiscal year-end. A school district may also permit the chief administrative or fiscal officer to execute transfers between line items, within defined dollar or percentage limits, without prior approval of the Board of Education. Expenditures may not legally exceed budgeted appropriations at the fund level. All appropriations lapse at the end of the fiscal year.

Lowell Area Schools utilizes the following procedures in establishing the budgetary data reflected in the financial statements:

- Starting in the spring, District administrative personnel and department heads work with the Superintendent and Associate Superintendent for Finance to establish proposed operating budgets for the fiscal year commencing the following July 1.
- In June, preliminary operating budgets are submitted to the Board of Education. These budgets include proposed expenditures and the means of financing them.
- Prior to June 30, a public hearing is held to obtain taxpayer comments on the proposed budgets.
- After the budgets are finalized, the Board of Education adopts an appropriations resolution setting forth the amount of the proposed expenditures and the sources of revenue to finance them.
- The original General and Special Revenue Funds budgets were amended during the year in compliance with State of Michigan Public Act 621 (the Uniform Budgetary and Accounting Act).
- Budgets for the General and Special Revenue Funds were adopted on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

5. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budget integration in the governmental funds. There were no substantial encumbrances outstanding at year end.

6. Investments

Investments are recorded at fair value, based on quoted market prices, or estimated fair value. Investment income is composed of interest and net changes in the fair value of applicable investments.

7. Inventory

Inventories are valued at cost (first-in, first-out). Inventories of the General Fund consist of teaching and custodial supplies. Inventories of the Food Service Fund consist of food, unused commodities and other nonperishable supplies. Disbursements for inventory-type items are recorded as expenditures at the time of use for each fund.

8. Capital Assets

Capital assets, which include land, land improvements, buildings, vehicles and furniture and equipment, are reported in the district-wide financial statements. Assets having a useful life in excess of one year and whose costs exceed \$5,000 are capitalized. Capital assets are stated at historical cost or estimated historical cost where actual cost information is not available. Donated capital assets are stated at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's useful life are not capitalized. Improvements are capitalized and depreciated over the remaining useful life of the related assets.

Land improvements, buildings and additions, vehicles and furniture and equipment are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	10-20 years
Buildings and additions	40-50 years
Vehicles	5-10 years
Furniture and equipment	3-10 years

9. Long-Term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported at the total amount of bonds issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

10. Early Retirement Incentive/Accumulated Vacation Pay and Sick Leave

Early retirement incentive and accumulated vacation pay and sick leave at June 30, 2005 have been computed and recorded in the basic financial statements of the District. Eligible District employees who select early retirement are entitled to a termination leave payment based on their age and years of service. Employees who leave the District are also entitled to reimbursement for a portion of their unused vacation and sick days. At June 30, 2005, the accumulated liabilities, including salary related payments, (expected to be financed by General Fund revenues) for early retirement incentive, accumulated vacation pay and accumulated sick leave amounted to \$1,980,088, \$108,976 and \$333,960, respectively.

11. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for expenditures or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

12. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

13. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note B – Cash Equivalents, Deposits and Investments

The State of Michigan allows a political subdivision to authorize its Treasurer or other chief fiscal officer to invest surplus funds belonging to and under the control of the entity as follows:

- Bonds, securities, and other obligations of the United States, or an agency or instrumentality of the United States.
- Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a financial institution, but
 only if the financial institution is a state or nationally charted bank or a state or federally chartered savings and
 loan association, savings bank, or credit union whose deposits are insured by an agency of the United States
 government and that maintains a principal office or branch office located in this state under the laws of this state
 or the United States.
- Commercial paper rated at the time of purchase within the 2 highest classifications established by not less than 2 standard rating services and that matures not more than 270 days after the date of the purchase.
- United States or federal obligation repurchase agreements.
- Banker's acceptances of United States Banks.
- Mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.
- Surplus funds investment pools.

Depositories actively used by the District during the year are detailed as follows:

1. Huntington National Bank

LOWELL AREA SCHOOLS

Notes to Basic Financial Statements June 30, 2005

Balances at June 30, 2005 related to cash equivalents and deposits are detailed in the Basic Financial Statements as follows:

Governmental Funds Fiduciary Funds	\$ 3,645,951 648,765	
	\$ 4,294,716	

Cash equivalents consist of bank public funds checking accounts. Deposits consist of certificates of deposit.

June 30, 2005 balances are detailed as follows:

Cash equivalents Deposits	\$ 2,026,507 2,268,209
	\$ 4,294,716

Custodial credit risk

Custodial credit risk is the risk that in the event of bank failure, the District's deposits may not be returned to the District. Protection of District cash equivalents and deposits is provided by the Federal Deposit Insurance Corporation. At year end, the carrying amount of the District's cash equivalents and deposits was \$4,294,716 and the bank balance was \$4,657,003. Of the bank balance, \$100,000 was covered by federal depository insurance and \$4,557,003 was uninsured.

Fair Value

Investments

As of June 30, 2005 the District had the following investments:

	rair value
Investment Pool Accounts:	
Huntington National Bank	\$ 33,208

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the District may not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District minimizes custodial credit risk by limiting investments to the types of securities allowed by law; and prequalifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

Credit Risk

The District's investments in the Huntington National Bank investment pool was unrated

Interest Rate Risk

The District minimizes interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements and by investing operating funds primarily in shorter term investments under 365 days. Unless matched to a specific cash flow, the District will not directly invest in securities maturing more than 18 months from the date of purchase. Reserve funds may be invested in securities exceeding 18 months if the maturity of such investments are made to coincide as nearly as practicable with the expected use of funds.

LOWELL AREA SCHOOLS

Notes to Basic Financial Statements June 30, 2005

Concentration of Credit Risk

The District's investment policy places no restrictions on the amount or percentage that may be invested in any one type of security.

Foreign Currency Risk

The District in not authorized to invest in investments which have this type of risk.

Note C – State School Aid/Property Taxes

On March 15, 1994, the voters of the State of Michigan approved Proposal A, which increased the State Sales and Use Tax rates from 4% to 6% and established a State Education Tax at a rate of 6 mills on all property, except that which is exempt by law from ad valorem property taxes, and dedicated the additional revenues generated to Michigan school districts. The amount of 2004 ad valorem State Education Taxes generated within the Lowell Area School District, and paid to the State of Michigan, totaled \$3,562,388.

These additional State revenues pass through to Michigan school districts in the form of a per pupil "Foundation Allowance" paid on a "blended count" of District pupil membership in February, 2004 and September, 2004. The 2004-05 "Foundation Allowance" for Lowell Area Schools was \$6,700 for 3,903 "Full Time Equivalent" students, generating \$23,856,618 in state aid payments to the District of which \$4,382,060 was paid to the District in July and August, 2005 and included in "Due From Other Governmental Units" of the General Fund and Food Service Special Revenue Fund of the District.

Property taxes for the District are levied July 1 and December 1 under a split-levy by the City of Lowell and the Townships of Ada, Bowne, Cannon, Cascade, Grattan, Lowell, Vergennes, Boston, Campbell and Keene. The taxes are then collected by each governmental unit and remitted to the District. The Counties of Kent and Ionia, through their Delinquent Tax Revolving Fund, advance all delinquent real property taxes at March 1 to the District each year prior to June 30. Delinquent personal property taxes receivable are detailed as follows:

Tax Year	General	Debt Service	Total
2004 2003 2002	\$ 10,202 9,283	\$ 4,069 3,675	\$ 14,271 12,958
2002	21,185	7,199	28,384
	\$ 40,670	\$ 14,943	\$ 55,613

Taxes uncollected after three years from the date of levy, unless material in amount, are written off the books of the District.

Section 1211(1) of 1993 PA 312 states that beginning in 1994, the board of a school district shall levy not more than 18 mills, if approved by voters, for school operating purposes, or the number of mills levied in 1993, whichever is less, on non-homestead property only, in order to be eligible to receive funds under the State School Aid Act of 1979. After 1996, electors may approve a 3 mill "Local Enhancement Millage" which must be shared between all local districts in each respective county intermediate district.

As Lowell Area Schools' electors had previously (September 24, 1991) approved an operating millage extension, the 18 mill non-homestead property tax was levied in the District for 2004.

The District levied 7.0 mills in 2004 for debt service purposes, applied on all taxable property in the District.

Taxable property in the District is assessed initially at 50% of true cash value by the assessing officials of the various units of government that comprise the District. These valuations are then equalized by the county and finally by the State of Michigan, generating the State Equalized Valuation. Taxable valuation increases will be limited, or capped (known as capped valuation), at 5% or the rate of inflation, whichever is less. With the implementation of Proposal A, taxable property is now divided into two categories: homestead and non-homestead.

Homestead property is exempt from the 18 mill "School Operating" tax. It is not exempt from the 6 mill "State Education" tax, any voted "Local Enhancement Millage", nor any additional voted millage for the retirement of debt.

Non-homestead property is considered to be all property not qualifying for a homestead exemption, which includes all commercial and industrial property. Non-homestead property is subject to all District levies.

Note D – Interfund Receivables/Payables and Transfers

Amounts due from (to) other funds representing interfund receivables and payables for cash flow advances at June 30, 2005 are detailed as follows:

	Due From		Due To	
General Fund:				
Building and Site Funds:				
2004 Construction Fund	\$		\$	9,500
Trust and Agency Funds:				
Flexible Benefits Fund		5,100		
		5,100		9,500
Building and Site Funds: 2004 Construction Fund: General Fund		9,500		_
Trust and Agency Funds: Flexible Benefits Fund:				7 000
General Fund				5,000
Total All Funds	\$	14,600	\$	14,500

Transfers between funds during the year ended June 30, 2005 were as follows:

	Transfers In	Transfers Out
General Fund Special Revenue Funds:		
Food Service Fund	\$ —	\$ 7,350
Athletics Fund	<u> </u>	291,145
		298,495
Special Revenue Funds Food Service Fund:		
General Fund Athletics Fund:	7,350	_
General Fund	291,145	
	298,495	_
Total All Funds	\$ 298,495	\$ 298,495

The General Fund transfer to the Athletic fund was made to pay the General Fund's share of support for the athletic program for the fiscal year and the transfer to the Food Service Fund was made to move State "At Risk" monies to the food service program.

Note E – Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows:

	Balances July 1, 2004	Additions	Deductions	Balances June 30, 2005
Capital assets not depreciated:				
Land	\$ 1,022,158	\$ —	\$ —	\$ 1,022,158
Construction in progress	7,173,266	2,298,607	7,173,266	2,298,607
Capital assets being depreciated:				
Land improvements	1,200,286	86,605	_	1,286,891
Buildings and additions	43,776,055	7,976,620	_	51,752,675
Furniture and equipment	803,952	385,989	_	1,189,941
Vehicles	2,400,213	71,792	265,800	2,206,205
Totals at historical cost	56,375,930	\$10,819,613	\$7,439,066	59,756,477
Less accumulated depreciation for:				
Land improvements	610,436	\$ 55,297	\$ —	665,733
Buildings and additions	14,963,105	954,177		15,917,282
Furniture and equipment	473,711	89,918		563,629
Vehicles	1,618,723	182,452	260,801	1,540,374
Total accumulated depreciation	17,665,975	\$1,281,844	\$ 260,801	18,687,018
Net Capital Assets	\$ 38,709,955			\$ 41,069,459

Depreciation expense was charged to District activities as follows:

Governmental activities:		
Instruction	\$ 856	,229
Supporting services	257	,082
Community services	38	,265
Food service	49	,859
Athletics	80	,409
	\$ 1,281	,844

Note F - Short-term Debt

On August 20, 2003, the District borrowed \$2,000,000 in anticipation of state aid (interest at 1.02%). The final payment of \$278,792 was made on August 20, 2004. On August 20, 2004, the District borrowed \$2,500,000 in anticipation of State aid (interest at 1.57%). The loan is due to be repaid in full on August 19, 2005. Interest cost on the loans was \$39,141 for the fiscal year.

Note G – Long-term Debt

Amounts available and to be provided for outstanding long-term debt at June 30, 2005 are summarized as follows:

	General Obligation		Ourant 1-plaintiff (Energy Conservation		tallment ırchase	Ret In	Early tirement centive/ umulated

	\$50,338,716	\$64,811,780	\$115,150,496

On June 29, 2005, the District issued \$10,025,000 in general obligation bonds with an average interest rate of 4.412% to advance refund \$9,475,000 of outstanding 2000 general obligation bonds with a effective interest rate of 5.559% resulting in a net present value savings of \$531,218. The net proceeds (\$10,219,242 after the net premium of \$333,487 and payment of \$139,245 in underwriting fees, insurance and other issuance costs) were deposited with an escrow agent and used to purchase United States government securities. Under the terms of the agreement these securities, together with the interest earned to maturity, will be sufficient to pay principal and interest as it becomes due. This procedure relieves the District from being primarily liable for the debt and the District is virtually assured of not being required to make further payments with respect to the debt. These funds are not commingled with other funds and cannot be redeemed prior to maturity. Any excess funds will be returned to the District upon final payment of principal and interest (Scheduled to be May 1, 2010). This defeasance procedure allows the District to remove the related assets and liabilities from its financial statements, which it has done. The assets, now held by the escrow agent to be used for the remaining principal and interest due of \$12,086,094 on the defeased debt at June 30, 2005 are detailed in the following schedule:

	Cost	Market Value	Par Value	
U.S. Government Securities	\$10,219,242	\$10,219,242	\$10,219,242	

Note H – Retirement Plan

Substantially all District employees participate in the Michigan Public School Employees' Retirement System (MPSERS), a statewide, cost sharing, multiple employer defined benefit public employee retirement system governed by the State of Michigan. The District's payroll for employees covered by MPSERS for the year ended June 30, 2005 was \$17,813,228. A Basic Plan member may retire at age 55 with 30 or more years of credited service or at age 60 with 10 or more years of credited service. The annual retirement benefit, payable monthly for life, is equal to 1½ percent of a member's final average compensation multiplied by his/her number of years of credited service. Final average compensation is the employee's average salary over the last 5 years of credited service. Vested employees may retire at or after age 55 with 15 years of service and receive reduced retirement benefits.

School districts in the State of Michigan are required to contribute at a rate, annually determined by the State of Michigan, of covered employees' compensation to the MPSERS plan. The contribution rate was 12.99% for the fiscal year ending September 30, 2004 and 14.87% for the fiscal year beginning October 1, 2004. The District's contributions to the plan for the fiscal years ended June 30, 2005, 2004 and 2003 were \$2,605,322, \$2,367,869 and \$2,365,627, respectively.

The "actuarial accrued liability" is a standardized disclosure method of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the MPSERS' funding status on a going concern basis, assess progress made in accumulating sufficient assets to pay benefits when due and make comparisons among public employee retirement systems and employers.

The MPSERS does not make separate measurements of assets and actuarial accrued liability for individual schools. The actuarial accrued liability at September 30, 2003 (the latest reporting date available expressed as \$ in millions) for the MPSERS as a whole, determined through an actuarial valuation performed as of that date, was \$44,769. The MPSERS' net assets available for benefits on that date were \$38,726 leaving an unfunded pension benefit obligation of \$6,043. Ten year historical trend information showing the MPSERS' progress in accumulating sufficient assets to pay benefits when due is presented in the September 30, 2004 Annual Report of the MPSERS, which may be obtained by contacting the System at P.O. Box 30171, Lansing, Michigan 48909-7671.

The total actuarial accrued liability (expressed as \$ in millions) increased by \$2,812 from September 30, 2002 to September 30, 2003. Not included in the pension benefit obligation above is any future obligation attributable to health, dental and vision insurance benefits which are funded on a cash disbursement basis. With the passage of Act 279 of 1996, making permanent the cash basis financing of health, dental and vision benefits, actuarially calculated liabilities for these benefits are no longer disclosed on the balance sheets.

Prior to January 1, 1990, participating employees could elect coverage under either the noncontributory Basic Plan or the contributory Member Investment Plan (MIP). Effective January 1, 1990, all new employees are automatically enrolled in MIP. Participants in MIP, who receive benefits in addition to those available under the Basic Plan, contribute a percentage of salary. The graduated contribution rate is based on total wages and is calculated at 3% of the first \$5,000; 3.6% of the next \$10,000; and 4.3% of all wages over \$15,000. MIP members may retire at any age with 30 years of service, or at age 60 with 5 years of service, with benefits based on a final average compensation period of 5 years for members of the Basic Retirement Plan and 3 years for members of the MIP Retirement Plan.

Post-employment benefits for health, dental, and vision insurance are available at retirement through the MPSERS. Retirees contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental and vision coverage. Required contributions for post-employment health care benefits are included as part of the District's total contribution to the MPSERS as discussed above.

Note I – Risk Management and Benefits

The District is a member of the West Michigan Risk Management Trust, a self-insurance program with districts pooling together to insure property, liability and auto exposure. Premiums from members of the Trust are determined through standard underwriting procedures. The members of the Trust have contributed amounts sufficient to fund individual and aggregate losses up to \$175,000 and \$865,000, respectively, on an annual basis. Excess insurance has been purchased to cover claims exceeding those amounts. A \$1,000 per occurrence deductible for property losses is maintained. The District paid \$147,598 in premiums to the Trust for the year ended June 30, 2005.

Health, life, workers' compensation and other employee insurance is provided by private insurance carriers. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note J – Stewardship, Compliance And Accountability

The following District fund had actual expenditures exceed final budgeted expenditures for the year ended June 30, 2005, as follows:

	Budget	Actual	Unfavorable Variance
Special Revenue Fund: Athletics Fund	\$ 667,093	\$ 668,962	\$ 1,869

October 15, 2005

The Board of Education Cedar Springs Public Schools

The following comments pertain to our audit of the financial records of Cedar Springs Public Schools as of and for the year ended June 30, 2005. The comments are made in accordance with Statement on Auditing Standards No. 61 "Communication With Audit Committees" which requires that in certain audits, certain matters are to be communicated to those who have responsibility for oversight of the financial reporting process. The communications required by this statement, if pertinent to the examination, are as follows:

- 1. Auditor's Responsibility Under Generally Accepted Auditing Standards.
- 2. Significant Accounting Policies.
- 3. Management Judgments and Accounting Estimates.
- 4. Significant Audit Adjustments.
- 5. Other Information in Documents Containing Audited Financial Statements.
- 6. Disagreements With Management.
- 7. Consultation With Other Accountants.
- 8. Major Issues Discussed With Management Prior to Retention.
- 9. Difficulties Encountered in Performing the Audit.
- 10. Uncorrected Misstatements (Passed Audit Adjustments).

The communications specified by this Statement are incidental to the audit and are not required to occur before, nor do they affect, our auditor's report on the District's financial statements.

The following are the matters to be communicated by SAS No. 61 based on our observations during the course of our audit of the financial statements and our review and evaluation of the internal control system of Cedar Springs Public Schools:

Auditors Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting principles. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

In planning and performing our audit, we considered Cedar Springs Public School's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

As part of obtaining reasonable assurance about whether Cedar Springs Public School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also, in accordance with OMB Circular A-133, we examined, on a test basis, evidence about Cedar Springs Public School's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* applicable to each of its major federal programs for the purpose of expressing an opinion on Cedar Springs Public School's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on Cedar Springs Public School's compliance with those requirements.

Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Cedar Springs Public Schools are described in Note A to the financial statements.

Difficulties Encountered In Performing The Audit

We encountered no significant difficulties in performing the audit of the financial statements of Cedar Springs Public Schools for the year ended June 30, 2005. We found the internal control structure and accounting system to be basically adequate and operating in the manner intended.

Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. During the course of our audit the following adjustments of a significant nature were made to the accounting records of the District to bring the balances to those presented in the financial statements:

General Fund

- 1. \$86,824 and \$19,173 to record accounts receivable and deferred revenue for federal and KISD revenues at June 30, 2005.
- 2. \$16,081 to record 2004 delinquent personal property taxes receivable and \$5,881 to write off uncollected 2001 taxes receivable at June 30, 2005...

Food Service Fund

1. \$5,218 to record the value of USDA bonus commodities received during the year.

2003 Construction Fund

1. \$35,410 to adjust accounts payable to actual at June 30, 2005.

Proposed Audit Adjustments

There were no material adjustments proposed during the audit not recorded by Cedar Springs Public Schools.

Suggestions And Recommendations

We offered suggestions and recommendations regarding the day-to-day operations of the accounting system of Cedar Springs Public Schools to the Director of Finance and Operations, District Accountant and Payroll Specialist as the topics arose during the course of our audit fieldwork. Hopefully, these suggestions will ease the day-to-day operations of the business office and assist in more efficient monthly and year-end financial record keeping and reporting.

Other Comments

The General Fund balance of the District increased by \$1,162,003 to \$3,758,368 at June 30, 2005. This balance represents 13 percent of the District's 2005-06 expenditure budget. The balance at June 30, 2004 was 9.6 percent. Maintaining a fund balance of at least 10 to 20 percent of the ensuing year's expenditure budget is advisable for Cedar Springs Public Schools. This gives the District more stable operating funds during the year, helps avoid or reduce the necessity of borrowing for short-term cash flow purposes and acts as a buffer against the uncertainty of state aid revenues accruing to the District. In addition, employee benefit costs are expected to increase significantly in the next few years, which will require the use of fund balance reserves considering the expectation of small (or no) growth in state aid revenues.

Cedar Springs Public Schools October 15, 2005 Page 4

Our audit this year was again completed under the requirements of Statement on Auditing Standards No. 99 "Consideration of Fraud in a Financial Statement Audit" (SAS No. 99), which requires both auditors and their clients to more directly and openly assess those areas within a school district that might be susceptible to fraudulent activity, which would normally include those areas outside the central office that handle cash, inventory, supplies, etc. This is an important audit standard that requires increased face-to-face discussions/interviews with client personnel and extensive documentation of our findings for future reference. We found that Cedar Springs Public Schools has a very extensive network of internal controls within its accounting and record keeping system, and found those tested this year to be operating in the manner intended. Working with District business office personnel, we will be testing other control areas each year as a part of our audit, with suggestions and recommendations to follow the testing each year, to assist the District in maintaining and improving its systems.

This communication is intended solely for the information and use of the Cedar Springs Public Schools Board of Education, administration and others within the organization. We have furnished a copy of this letter to the Michigan Department of Education as an enclosure with the audit report as required by the State of Michigan.

We appreciate the opportunity to provide financial auditing and advisory services to Cedar Springs Public Schools and hope to continue to do so in the future. We also appreciate the dedication and cooperation of the District's administration and accounting personnel in performing their functions and in assisting us in completing ours. If there are any questions regarding the audit report, or the attached communications, we will be happy to address them.
